WE'RE ROOTING FOR YOU! QUIZ ANSWERS

How did you do?

1

B
The seeds on a strawberry are on top of the skin rather than underneath. You can grow strawberries from their seed. [Find out how to grow yours here!](#)

2

B
Broccoli is usually green and has a bushy head on top of a stalk, like trees!

3

B
Although avocados are often eaten with tasty salads they are actually fruit and grow on trees.

4

C
Australians and Americans call courgettes zucchini. "Zucchini" comes from the Italian word for squash ("zucca") because courgettes are a type of squash!

5

A
Apples grow on branches of apple trees individually. They make a great snack and can be cooked to make a tasty dessert. [Try Mixer's baked apple recipe!](#)

6

C
When corn is heated, it explodes from the kernel and puffs up! It can make a great homemade snack.

7

A
Olive oil is produced from the olive fruit and is great for cooking or as a salad dressing.

8

C
There are all types of beans, including wax beans which are sometimes purple or yellow.

9

C
We eat pomegranate seeds – they're pink and juicy. The flesh of a pomegranate is actually white and bitter-tasting.

10

A
Garlic is a member of the onion family and has a really strong smell!
