

PEDAL'S

RAINBOW FISH WINDSOCK

TO MAKE THE WINDSOCK, YOU WILL NEED:

- 2 sheets of coloured A4 paper
- 4 sheets of different coloured tissue paper (for example orange, red, green and blue)
- self-adhesive googly eyes
- 2 pieces of string about 30cm long
- a stick about 40cm long
- scissors • sticky tape • pencil •

1

First, fold one piece of A4 paper in half along the longest edge and cut on the folded line.

Use one of the two pieces of paper to make a tube shape like the one in the picture, by gently rolling it and then secure it with some tape.

2

Now, draw two fins on the other piece of A4 paper.

Cut them out and stick them to the bottom of the tube with some tape.

3

Cut two strips from each piece of coloured tissue paper, about 3cm wide and 40cm long.

Stick them with some tape to the inside of the tube, leaving them to stream out like a tail.

Then, stick on the googly eyes at the other end. If you don't have any, you can always draw the eyes on!

4

Next, take one of the pieces of string and secure each end with some tape at the front of the windsock to make a handle.

Then tie the other piece of string to the handle at one end and to the stick at the other.

5

Your rainbow fish windsock is ready!

Take it for a run next time you go to the park and see its colourful tail dancing through the air.
